

## Caterpillar to Butterfly Printable

1. Cut out each piece.
2. Color the butterfly wings orange to be the monarch butterfly.
3. Color the chrysalis green.
4. Color the body of the butterfly black. Then turn it over to be a caterpillar. Color this side yellow, black, and white to create a monarch caterpillar.
5. Laminate each piece.
6. Add velcro dots on both sides of the caterpillar/butterfly body. One side will stick to the chrysalis. The other side will stick to the butterfly wings. Add velcro dots to the back of the chrysalis and the front of the butterfly wings.
7. Let your child change the caterpillar to a chrysalis, and to the butterfly.
